The wringer swings and locks in any position, making it very convenient in small rooms.

These are only a few of the many features found in the Mola. Let us show you the rest.

THE THEATRE

The Strand Theatre
Marjorie Rambeau in "The Fortune Teller," the Robertson-Cole Super-Special which will be shown Thursday and Friday at the Strand theatre, is seen at the very pinnacle of her fame as the greatest emotional actress of the American stage. Her screen appearance immortalizes the exquisite dramatic art which gained her the unanimous praise of foremost critics.

The first nighters who had the good fortune to witness the opening of the play in New York were electrified by the sweeping force of Miss Rambeau's characterization of the difficult stellar role. Her fine, dignified interpretation of the beautiful and cultured Denee Browning, the superstitious wife of the scientist, and her graphic depiction of the same woman as a fallen and degraded creature were the extremes of her emotional sweep.

Miss Rambeau's historic triumph is not only equalled but surpassed in the screen version of "The Fortune Teller." Deprived of the use of speech as a medium for the expression of emotional shading she registers even more forcibly through the technically perfect utilization of her remarkably mobile features.

Strangely enough "The Fortune Teller" is one of those rare motion pictures which possesses not only a capable star but a story which combines all the elements of mystery, romance, adventure and heart appeal. Mother-love is its theme.

GRIP

Grip usually starts just the same as a cold with a watery discharge from the nose. You are much more likely to contract the grip when you have a cold. For that reason when grip is prevalent you should go to bed as soon as you feel that you are taking cold and stay in bed until fully recovered which should not be long if you take Chamberlain's Cough Remedy. Three days in bed now is better than three weeks later on.—adv. 68-41.
